Acknowledgements

I would like to thank the Papua New Guinea Electoral Commission, Jon Fraenkel, Bill Standish, Colin Filer, Ron May, David Hegarty and Nicole Haley for sharing election data and/or offering advice. I am also grateful to Tatia Currie, Wilma Gillies and Salwa Dastgeer for research assistance. I owe thanks to Jack Corbett, the State Society and Governance in Melanesia program, and the Centre for Democratic Institutions for early support. I am particularly grateful to Professor Stephen Howes and Michael Cookson of the Development Policy Centre for their enthusiastic support of the project. The Development Policy Centre gratefully acknowledges funding from the Australian Aid Program in support of the ANU-UPNG partnership.

About

This document contains a table of available election results for general elections held in Papua New Guinea between 1972 and 2012. It is drawn from the Development Policy Centre's Papua New Guinea Election Results Database.

You can learn more about the database here: <http://devpolicy.org/pngelections/>

The data that follow are not official election results and are for research use only. We cannot guarantee that the results are free of errors.

How to read the data tables

The data tables that this book contain are sorted by election year, then alphabetically by constituency name. If a constituency or year is missing, it means we do not have data for it. Missing data are listed on the next page. Constituencies were re-districted prior to the 1977 election and the names of some constituencies were changed.

The table below explains the different columns you will see in the data tables.

Field	Explanation
Year	Year of election.
Constituency	The name of the constituency.
Candidate's name	The candidate's name.
1st preference votes	The number of first preference votes the candidate won. For years from 1977 to 2002 PNG used a first past the post electoral system and only first preference votes exist.
Votes after prefs if relevant	In 1972, and for elections after 2002, PNG used preferential voting systems. In these years, this column shows the votes won after preference allocations by candidates still in the count at the final preference round.
Is sitting MP?	"Yes" indicates the candidate was the sitting MP. We have no data for this field for 1972.
Winner?	"Yes" indicates the candidate won the election.
Winner's vote share	Shows the winner's vote share. In years with preferential voting this is the vote share after preference allocation.

Missing Data
